

# Pamela Trokanski Dance Theatre Scholarship

We believe in dance and multiple art forms as tools for physical and mental well-being, academic enrichment, and to support a thriving and connected community. As part of our outreach program, this scholarship aims to bring dance to under-served members of the community by providing financial support towards classes at the Dance Workshop where scholarship recipients may potentially work with one of the four companies under the PTDT umbrella, train to teach dance, or both. More specifically, it seeks to support those who are considering dance as a professional career, including teaching and performance work, providing the training necessary for their future growth.
